PROFESSIONAL EXPERIENCE

Frontend Odoo Developer

Full-time

TaqTechno

Oct 2024 – Present

- Building full-stack web solutions on the Odoo ERP, bridging frontend design with backend logic.
- Translating Figma designs into pixel-perfect Odoo themes and fully custom websites.
- Integrating dynamic, server-rendered data into the frontend with OWL (Odoo Web Library).

Frontend Angular Developer

Contract – Fintech

TaqTechno

Jun 2024 – Sep 2024

- Developed core features for two enterprise fintech applications: sponsored user management, device tracking, wallets and top-ups, and SMS-based payments with OTP verification.
- Built and maintained modular Angular 17 apps with NgRx, integrating 60+ RESTful APIs with robust error handling.

Frontend Developer (Freelance)

Freelance

Self-Employed

Aug 2024 – Present

- Built advanced full-stack React applications and custom WordPress themes from scratch.
- Delivered a secure quiz app with OTP-protected access and session validation.
- Shipped e-commerce frontends, personal portfolios, and UI-heavy apps using React, Next.js, and Firebase.

Frontend React Developer Intern

Internship

Code Alpha

Apr 2024 – Aug 2024

- Turned wireframes into clean, interactive components with React, HTML, and CSS.
- Integrated RESTful and GraphQL APIs with a focus on performance, reusability, and accessibility.

SELECTED PROJECTS

RAG Career Chatbot

Next.js | LangChain | Astra DB | Groq

Solo Project

Present

- Personal AI assistant answering career questions via Retrieval-Augmented Generation with vector search and streaming responses.

Gemini AI Chat Clone

React | TypeScript | Google GenAI | Firebase

Solo Project

- AI chat interface with markdown + code highlighting, RTL support, and secure Firebase authentication.

YouTube Clone

React | YouTube Data API | Tailwind CSS

Solo Project

- Video streaming platform with search, playback, channel pages, and responsive UI.
