

Islam Hafez

Odoo Developer | ERP Customization | Python & OWL

✉ islamhafez806@gmail.com 🌐 islamhafez.vercel.app 📄 github.com/islamhafez0 📍 Cairo, Egypt

PROFESSIONAL SUMMARY

Odoo Frontend Developer specializing in **Odoo ERP customization** and full-stack web solutions. Combines **Python** module and API development with frontend integration using **OWL (Odoo Web Library)**, turning Figma designs into production-ready Odoo themes and custom websites that fit naturally into the Odoo ecosystem. Backed by 2+ years of professional frontend experience with React and Next.js.

CORE SKILLS

Odoo ERP	Customization, OWL (Odoo Web Library), Custom Themes, Websites, Module Development
Backend	Python, RESTful APIs, PostgreSQL, Node.js
Frontend	JavaScript, HTML5 & CSS3, Tailwind CSS, Figma, React.js, Next.js
Tools	Git & GitHub, Docker, VS Code
Soft	Client Communication, UI/UX Implementation, Problem Solving, Web Performance

PROFESSIONAL EXPERIENCE

Odoo Frontend Developer

Full-time

TaqTechno

Oct 2024 – Present

- Building full-stack web solutions tailored to business needs using the Odoo ERP system.
- Developing custom modules and APIs with Python and integrating them into the frontend with OWL, focusing on dynamic server-rendered data and performance.
- Turning Figma designs into pixel-perfect Odoo themes and building fully custom websites within the Odoo ecosystem.
- Bridging frontend design and backend logic to deliver a smooth user experience.

Frontend Angular Developer

Contract – Fintech

TaqTechno

Jun 2024 – Sep 2024

- Built features for two enterprise fintech applications including sponsored user management, device tracking, wallets and top-ups, and SMS-based payments with OTP verification.
- Integrated 60+ RESTful APIs into modular Angular 17 applications with NgRx state management.

Frontend Developer (Freelance)

Freelance

Self-Employed

Aug 2024 – Present

- Delivered full-stack React applications, custom WordPress themes, and e-commerce frontends for diverse clients.
- Built a secure quiz app with OTP-protected access and session validation.

Frontend React Developer Intern

Internship

Code Alpha

Apr 2024 – Aug 2024

- Converted wireframes into clean, interactive, accessible components and integrated RESTful and GraphQL APIs.

SELECTED PROJECTS

RAG Career Chatbot

Next.js | LangChain | Astra DB | Groq

Solo Project

Present

- AI assistant answering career questions via Retrieval-Augmented Generation with vector search and streaming responses – demonstrates full-stack and AI integration skills.

Gemini AI Chat Clone

React | TypeScript | Google GenAI | Firebase

Solo Project

- AI chat interface with markdown/code highlighting, RTL support, and secure Firebase authentication.

YouTube Clone

React | YouTube Data API | Tailwind CSS

Solo Project

- Video streaming platform with search, playback, channel pages, and fully responsive UI.
